H I G H P E R F O R M A N C E M O U N T A I N B I K E S

**PIKES PEAK FRAME**

**FEATURING**

- 7005 Superlight aluminium frame
- Compatible with suspension forks of 70-100 mm travel
- Adjustable Cane Creek AD-10 rear shox
- 3-point rear-shox positioning
- Mega-sized downtube (71 mm)
- One piece rear triangle

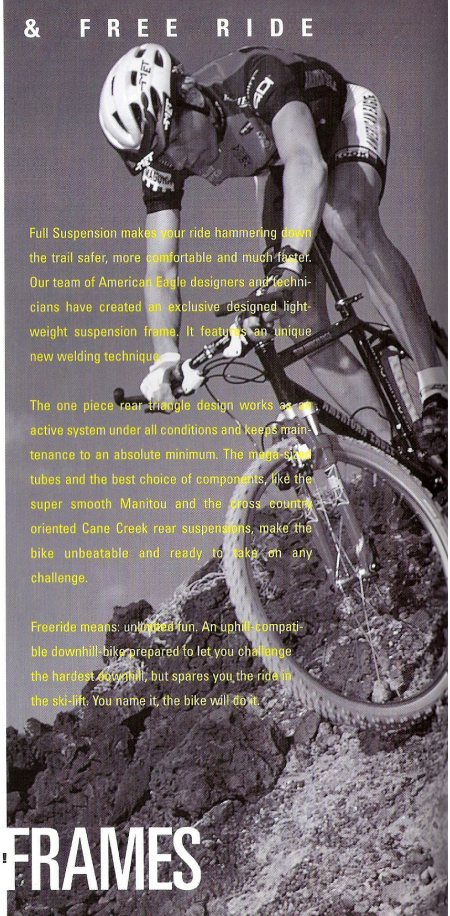

**FULL SUSPENSION & FREE RIDE**

Full Suspension makes your ride hammering down the trail safer, more comfortable and much faster. Our team of American Eagle designers and technicians have created an exclusive designed light-weight suspension frame. It features an unique new welding technique.

The one piece rear triangle design works as an active system under all conditions and keeps maintenance to an absolute minimum. The mega sized tubes and the best choice of components, like the super smooth Manitou and the cross country oriented Cane Creek rear suspensions, make the bike unbeatable and ready to take on any challenge.

Freeride means: uphill fun. An uphill compatible downhill-bike prepared to let you challenge the hardest downhill, but spares you the ride in the ski-lift. You name it, the bike will do it.

Individuality starts with a very good frame. The same frame used for our top-of-the-line Pikes Peak is now also available for people who like to manufacture their own unique mountainbike. Adjustable rear suspension with 3-fold adjustability for downhill, freeride or cross country. No pogo pedalling and active under braking. Light weight and unmatched stiffness for supreme handling.

GO OUT AND HAVE FUN! **FRAMES**

Build your own bike by starting with the best frame available: The American Eagle team frame. The frame we use for our high demanding teamriders. This suspension-ready frame is developed in co-operation with professional riders like Gunn Rita Dahle and Henrik Djernis who's experience gives the frames the race-proven geometry and supreme handling. Experience the new and complete different feel of riding beyond your past limit.

R I D E   L I K E   A   P R O !

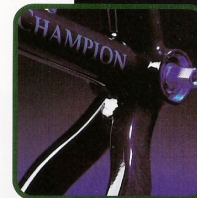

The frame that brought our first Olympic title is now available for all earthlings. This triple butted frame has the best Stiffness-To-Weight ratio ever measured on a mountainbike frame. Mountainbike magazines rave about it's performance, and voted it one of the best racing mountainbike frames ever made. Where ever you look, every detail is carefully designed with unmatched passion for the sport and it's technology.

### FEATURING

- ◆ Super light weight 7005 (weight 1,4 Kg.)
- ◆ Compatible with all popular suspension forks
- ◆ Sloping top tube
- ◆ Smooth welded joints
- ◆ 3 Slot Cablestopper (Magura guiding)
- ◆ Pressed Bottom Bracket
- ◆ S-bend Stays for max. braking and clearance
- ◆ Highest Stiffness-To-Weight ratio worldwide

## FREE RIDE BIG BEAR 27

Manitou X vert R dual crown 100 mm travel  
 Manitou Afterburner 100 mm travel rear shox  
 Magura HS 33 Hydraulic super brakes  
 ESP 9.0 SL 27 speed shifting system  
 Shimano XT  
 WRA Crankset  
 Mavic 221 S AL Rims  
 Panaracer Duster Pro 2.1 tires  
 SDG saddle  
 Ritchey Logic C pedals

Frame: 7005 FS Aluminium

Sizes: 16" 19" 22"

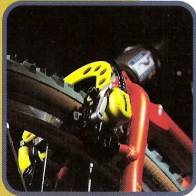

This extremely good looking freeride bike is equipped with the best stuff available. The new 27 speed shifting system. Test winning adjustable suspension systems from Manitou are the ultimate in stability and durability. No need to take a deep breath before downhill, if the speeds takes you up to a higher level than expected, the Magura hydraulic brakes will make you stop when you want to. What can we say about the other components? Just look at them, fall in love and get going!

## FULL SUSPENSION XC PIKES PEAK 27

Manitou X - vert 80 mm travel  
 Cane Creak 100 mm travel rear shox  
 Magura HS 33 Hydraulic super brakes  
 ESP 9.0 SL 27 speed shifting system  
 Shimano XT  
 WRA Crankset  
 Mavic 222 Al Rims  
 Michelin Wildgripper L tires  
 SDG saddle  
 Ritchey Logic C pedals

Frame: XC 7005 FS

Sizes: 16 19 22

Comfort and efficiency takes on another dimension. Sharing the same unique bombproof frame as the Big Bear this bike is trimmed to be the perfect lightweight Cross Country racer. The adjustable 70 / 85 mm front and rear travel and the smart choice of light and durable components turns a tuff tour in the Alps to a ride in heaven. Manitou front and Cane Creak rear suspension technology, Magura hydraulic brakes, Gripshift ESP 9.0 SL 27 speed, Michelin Wildgrippers on Mavic rims are all on the "must have"-list of demanding bikers who take themselves and there bike to the absolute maximum and beyond.

71

## FULL SUSPENSION XC DEVIL HILLS

Manitou Spyder R 70 mm travel  
 Cane Creak Air/oil 100 mm travel rear shox  
 Dia Compe VC 767 brakes  
 ESP 7.0 brake levers  
 Sachs PG 8 shifting system  
 Shimano LX  
 Mavic 221 Al S Rims  
 Panaracer Duster V tires  
 Ritchey Logic C pedals

Frame: XC 7005 FS

Sizes: 16 19 22

Take a close look at this bike and you will find all the goodies you may look for if you want to do some racing and tuff touring any time of the year, any mountain in sight: Fully adjustable Cane Creek rear shock, Dia Compe parallelogram V-Brakes, Manitou Spyder R front fork, Shimano Deore XT derailleur, ..... explore your limits!

8

# LAKE TAHOE

Manitou Spider 70 mm travel  
 Cane Creek Air/coil 100 mm travel rear shock  
 Dia Compe VC 737 brakes  
 Sachs PG 8 shifting system  
 Sachs Centera Derailleur  
 Mavic 221 S AL rims  
 Panracer Duster V tires  
 Wellgo 955 pedals

Frame: XC 7005 FS

Sizes: 16" 19" 22"

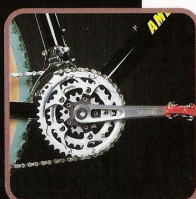

Ever dreamed of having a real full suspension bike, but couldn't afford it? Then here is the bike you have been dreaming of. Save where possible, invest where necessary. The same high-class frame as the Big Bear combined with well picked components that allow intense use but also step by step upgrading, makes it possible for you to join the elite. Featuring powerful Dia Compe brakes, Manitou and Cane Creek suspension technology, Mavic rims and Sachs derailleurs show that we don't compromise at places where it comes to quality and reliability.

# DURANGO 27

Manitou SX-Ti 70 mm travel  
 Magura HS 33 Super Hydraulic brakes  
 ESP 9.0 SL 27 speed shifting system  
 Shimano XT  
 WRA Crankset  
 Mavic 517 Al Rims  
 Michelin Wildgripper LS tires  
 SDG saddle  
 Ritchey Logic Pro pedals

Frame: 7005 SL Aluminium

Sizes: 16" 18" 20" 22"

This is the American Eagle Professional Team Bike. Which is way you will find only the most sophisticated components and technologies on it. 27 speeds offer a wide gear ratio as well as close steps. They are operated by SRAM's ESP 9.0 SL derailleurs quickly and precisely. The WRA cranks are extremely stiff and light. About Manitou's SX Ti: we have heard from the Pro's it's the best ever. This bike does offer you everything but an excuse for not winning the race.

ALUMINIUM SL  
TACOMA

Manitou SX-R 70 mm travel  
Shimano XT groupset  
Mavic 517 Al Rims  
Michelin Wildgripper Sprint tires  
SDG saddle  
Ritchey Logic C pedals

Frame: 7005 SL Aluminium

Sizes: 16 18 20 22

It's difficult not to be a fan of Shimano's Deore XT groupset. On the Tacoma you will find it complete, combined with many top of the line products from Mavic, Michelin or Manitou. We recommend this bike for serious sport.

ALUMINIUM SL  
SPOKANE

Manitou SX 70 mm travel  
Magura HS 33 Hydraulic super brakes  
ESP 9.0 shifting system  
Shimano LX  
WRA Crankset  
Mavic 222 Al Rims  
Ritchey Speedmax tires  
SDG saddle  
Ritchey Logic C pedals

Frame: 7005 SL Aluminium

Sizes: 16 18 20 22

This brother of the Durango is a pro's bike for an incredible price. Race ready with Magura's HS 33, ESP 9.0 and new Sachs cartridge-bearing hubs on the superlight frame. Get your starting number now and line up for the race you can't lose.

ALUMINIUM SL  
TRAVERSE

Manitou Pro 70 mm travel  
Shimano XT/LX groupset  
Mavic 222 Al Rims  
Ritchey Speedmax tires  
Ritchey Logic C pedals

Frame: 7005 SL Aluminium

Sizes: 16 18 20 22

Do you like a no-nonsense mountainbike? Then remember this bike, equipped with the most durable components found. It will still be around when you have turned into an oldtimer.

# ALUMINIUM SL DEATH VALLEY

Manitou Spyder R 70 mm travel  
Dia Compe parallelogram VC 767 brakes  
ESP 7.0 brake levers  
ESP 7.0 shifting system  
Shimano LX  
Mavic 222 Al Rims  
Ritchey Speedmax tires  
Ritchey Logic C pedals

Frame: 7005 SL Aluminium

Sizes: 16 18 20 22

You will hardly find a lighter bike in it's class with uncompromised performance and durability. Low weight, high jumps and soft landings with the new featherlight Manitou Spider R fork.  
Have fun, ride hard!

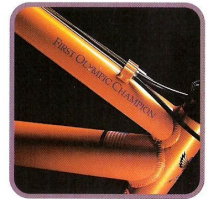

# ALUMINIUM MAMMOTH

Manitou Spyder 70 mm travel  
Dia Compe VC 757 brakes  
Dia Compe DP-7 plus brake levers  
Shimano LX  
Mavic 221 Al Rims  
Ritchey Speedmax tires  
Ritchey Logic C pedals

Frame: 7005 Aluminium

Sizes: 16 18 20 22

Solid as a rock. The perfect friend to keep you company on comfortable long tours as well as intense every day use. The Mammoth brings you back where you belong: in nature.

151

# ALUMINIUM MOUNT SNOW

SR 8300 70 mm travel  
Magura HS 24 Hydraulic super brakes  
Sachs Centera Di.R.T. groupset  
Mavic 221 Al Rims  
Ritchey Speedmax tires  
Wellgo 964 AL pedals

Frame: 7005 Aluminium

Sizes: 16 18 20 22

A small revolution. Aluminium frame, Magura's new HS 24, SR 8300 suspension fork and the new Sachs Centera with the Di.R.T. Derailleur! All together this makes the Mount Snow probable the most innovative bike in it's class. Dare to be innovative too!

# CROMOLY DB VAIL

SR 8300 V 70 mm travel  
Dia Compe VC 737 brakes  
24 speed Shimano STX-RC groupset  
Sachs PG 8 shifters  
Mavic 138 Al Rims  
Panaracer Duster V tires  
Wellgo 955 pedals

Frame: CrMo Double Butted

Sizes: 16 18 20 22

Money well spent. This model, equipped with 24 speed Shimano STX-RC groupset has an oversized double butted CrMo frame for a comfortable ride. The SR 8300 suspension fork helps you to keep sight of the track and makes your ride supersmooth. The ideal bike to win your first race or to get in touch with your inner nature.

# CROMOLY TAOS

SR 8300 V 70 mm travel  
Dia Compe VC 757 brakes  
Shimano STX groupset  
Mavic 138 AL Rims  
Pananacer Duster V tires  
Wellgo 955 AL pedals

Frame: CroMo PG

Sizes: 16 18 20 22

This is the Pro Team Replica!  
With all the race essentials  
like the MCU-Elastomere SR  
8300 fork, V-type Brakes and  
Mavic rims, it is race ready  
and 100% fun to ride.

# CROMOLY PADUCAH

SR 7500 70 mm travel / CroMo fork  
Dia Compe VC 737 brakes  
Shimano groupset  
Mavic 138 AL Rims  
Pananacer Duster V tires  
Wellgo 955 AL pedals

Frame: CroMo PG

Sizes: 14 16 18 20 22

Suspended or not, the choice  
is yours. All you need on a  
Mountainbike which will be  
able even to carry you over  
the Alps if you want it to.  
Dia Compe V-type Brakes,  
Shimano Alivio Derailleurs,  
Mavic rims and DT spokes.

WE PROMISE YOU'LL BE SURPRISED **GEOMETRY**

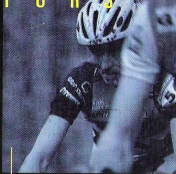

**American Eagle bikes, combining the world's best!**

Like the name says American Eagle mountainbikes are the perfect example of the American dream. Dreaming is fine, knowing is better. That's why we also like to trust on our German, French and Dutch designers to make the bike handle perfectly all over the world in any kind of terrain. We won't stop until we find the perfect design capable of handling any situation you'd like to challenge. Take our professional teamriders for example. They compete all over the world and bring home, besides the top-results, valuable information we can use to optimise our bikes. That's the reason we only invest in stuff that really improves the bikes performance (and not only it's good looks), and provides you with the greatest satisfaction.

**Ride with passion!**
