1984 BICYCLES

Go for it!!!-the 1984 MEDICI

Are you 5'2" or less? . . . Ask for our special brochure—the MEDICI Pro-Minimo, three sizes—15, 16 & 17 inch seat tube lengths.

MEDICI BICYCLES

In 1978, the MEDICI road racing bicycle made its appearance in the U.S.A. Manufactured in Los Angeles, the name MEDICI was selected as being illustrative of the dedicated craftsmanship of the Italian renaissance.

A product of experienced, professionally trained experts, MEDICI is designed and manufactured along classic Italian racing lines. A production bicycle, it is constructed in optimum angle and tube length for each of its 18 seat tube sizes between 46.5 and 65 cm. The Pro Minimo was introduced in 1983.

Handcrafted in the most fully equipped factory of its kind in the world and machine quality controlled, these bicycles employ all of the most sophisticated current technology in the field.

MEDICI bicycles are built of brass-brazed Columbus SL & SP double butted steel tubing, depending on the seat tube length. They feature:

- Eyeletted seat stays with maximum lug contact
- Chrome dropouts (front and rear), chromed right chain stay, fully chromed fork
- Smooth indent-free chain stays
- Brazed-on guides, stops and fixtures
- Specialized bridge reinforcing
- Investment cast lugs, fork crown and bottom bracket shell
- Cross-grooved drop-outs

No short-cuts are taken during filing, sand blasting, pickling (acid bath) and paint priming. Colors are lustrous, electrostatically applied, oven-cured and rendered safe and beautiful by special prismatic decals and clear coat top lacquer.

Framesets are available in the nine 1984 colors and five platings in "completed" ready-to-ride form, as shown in the specifications.

Fitments for down tube derailleur shift levers are provided as a matter of course but stops for handlebar shift cables are available upon specific order at no additional cost. Triathlon configuration (2 water bottles & pump under top tube) and Campagnolo brazed-on front derailleur were added to the MEDICI program in 1983. This year an internal cable system is optional. Ask about it.

All sizes of MEDICI are in STOCK on both the East and West Coast of the U.S.A. Delivery is immediate!

Ride & race safely on steel!

BRAZE-ON FEATURES

- A. Top Tube brake cable tunnels (3)
- B. Campagnolo Bottom Bracket derailleur cable guides. Placed on top for painted framesets, underneath for plated framesets.
- C. Campagnolo over or under right rear chain stay cable stop (1)
- D. Down Tube and Seat Tube water bottle cage fittings (2)
- E. Down Tube derailleur guides (2)
 1. Shift lever bosses, or
 2. Fingertip control cable stops
- F. Campagnolo Front Derailleur
- G. Chain Hanger
- H. Pump Peg under Top Tube

All Sizes In Stock — Immediate Delivery

PAINT & FINISHING

- A. Standard 1984 colors and plating available are:
1. Indian Metallic Red-yellow highlighting
 2. Fire Engine Red-yellow highlighting
 3. Candy Apple Metallic Red-yellow highlighting
 4. Bright Metallic Blue-yellow highlighting
 5. Star Metallic Silver Classico—This color selection is accompanied by:
 - a. Black Highlighting
 - b. Black Pump
 - c. Black Brake Cable Housing
 - d. Black Decals
 - e. Black Water Bottle Cage
 6. Burnt Metallic Orange-black highlighting
 7. Dense Gloss Black-yellow highlighting
 8. Brilliant Metallic Jade Green-yellow highlighting
 9. Anthracite Metallic Gray-yellow highlighting
 10. Bright Chrome-black highlighting
 11. Brushed Chrome-black highlighting
 12. Brass Plate-black highlighting
 13. Nickel Plate-black highlighting
 14. Copper Plate-black highlighting
- B. Pump is color matched to frameset except as noted
- C. A fully chromed fork is standard. Painted fork optionally available.
- D. Decals are head and seat tube, world bands, down tube identification, chain stay model & flag
- E. Paint procedure: Acrylic primer, two coats of color, decals, clear overcoats. All electrostatic, all oven cured.

- G. Chromed rear dropouts to prevent rust.
- H. Head Tube Lugs can be chrome or nickel plated at extra cost.

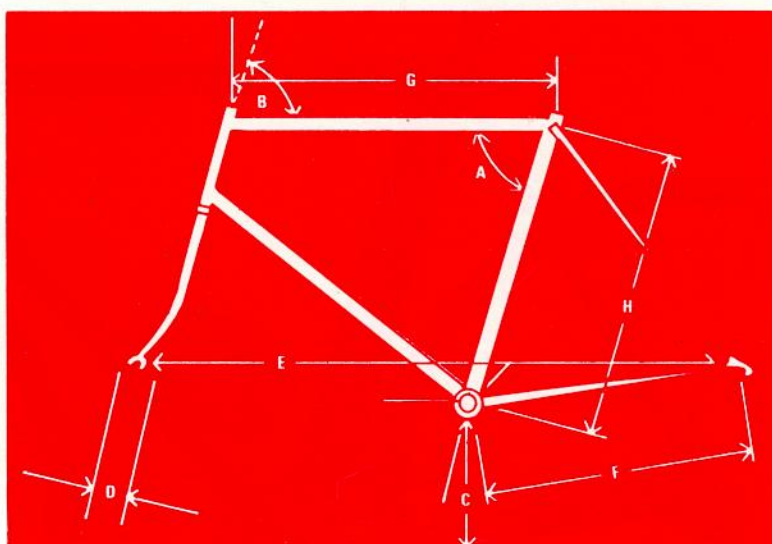

SIZES

Frames are manufactured in seat tube length of from 49 cm to 65 cm (19¼" to 25½") in increments of one cm (0.4"). In addition, a limited number of 46.5 cm (18") frames are available at extra cost. Consult MEDICI Pro-Minimo brochure for framesets of 40, 42, & 44 mcs. Measurement is figured from center of bottom bracket to top of top tube.

CONFIGURATION

- A. Angle between top tube and seat tube: 73 to 75 degrees according to frame size (see chart)
- B. Angle between top tube and head tube: 73 to 75 degrees according to frame size (see chart)
- C. Bottom Bracket height from ground: 267mm (10½")
- D. Fork blade rake: 48mm (1-7/8")
- E. Wheelbase: 38½" to 40¼" according to frame size
- F. Chain stay: 420mm (16½") measured from center of bottom bracket to center of derailleur hanger
- G. Top Tube: 52 cm to 60 cm according to frame size. From 46.5 to 55 cm top tube is slightly longer than seat tube. From 56 cm to 65 cm top tube is slightly shorter than seat tube. (see chart)
- H. Seat Tube: 46.5 cm to 65 cm
