

MUDDY FOX 

SUSPENSION RANGE

INTERACTIVE SUSPENSION

- * A unique Suspension System linking front and rear which eliminates the bio-pacing effect. This allows the rider the comfort of suspension without the power loss associated with suspension bikes
- * The system does not allow the bike to dive in downhill braking, giving greater stability
- * Adjustable front and rear height still giving identical travel because of the fixed linkage operating a single, central, custom designed disc suspension

ROCK 'N' ROLL TEAM

- * 7005 Ovalised Alloy frame set with CNC Machined dropouts
- * Low pivot point eliminates pedal feedback
- * Noleen Gas/Oil/Rear shock adjustable
- * Rockshox forks

ROCK 'N' ROLL CROMO

- * Antiflex rear end
- * Simple pre-load adjustment
- * Quick and easy spring change
- * Maintenance free elastomer spring
- * Affordable suspension with great performance
- * NOW IMPROVED AND LIGHTER

INTEREACTIVE TEAM

FRAME: MFX ALU MONOCOQUE - INTER LINKED FULL SUSPENSION - SMART SYSTEM.

FORK: MFX TITANIUM. **DERAILLEURS:** FRONT SHIMANO XTR REAR XT BRAZE-ON. **SHIFTERS:** GRIPSHIFT SRT800 - X RAY.
